It starts with one message.
And your money follows your rules.

The only financial system where money moves on your command

–

Without apps, cards or forms.

-Carolina, Visionary

The system is broken.
And Europe is paying the price.

Every day, millions of people lose money, time and nerves – because of a loyalty system no one understands.
Logins get forgotten, Points expire. Cashback never arrives.
Europe loses billions in purchasing power – because no one sees the bigger picture. And no one is talking about it.

Another login? Seriously?

Cashback? I saw nothing

Cumulus is driving me mad

I want real money back

I just want to buy

Collecting Points is boring
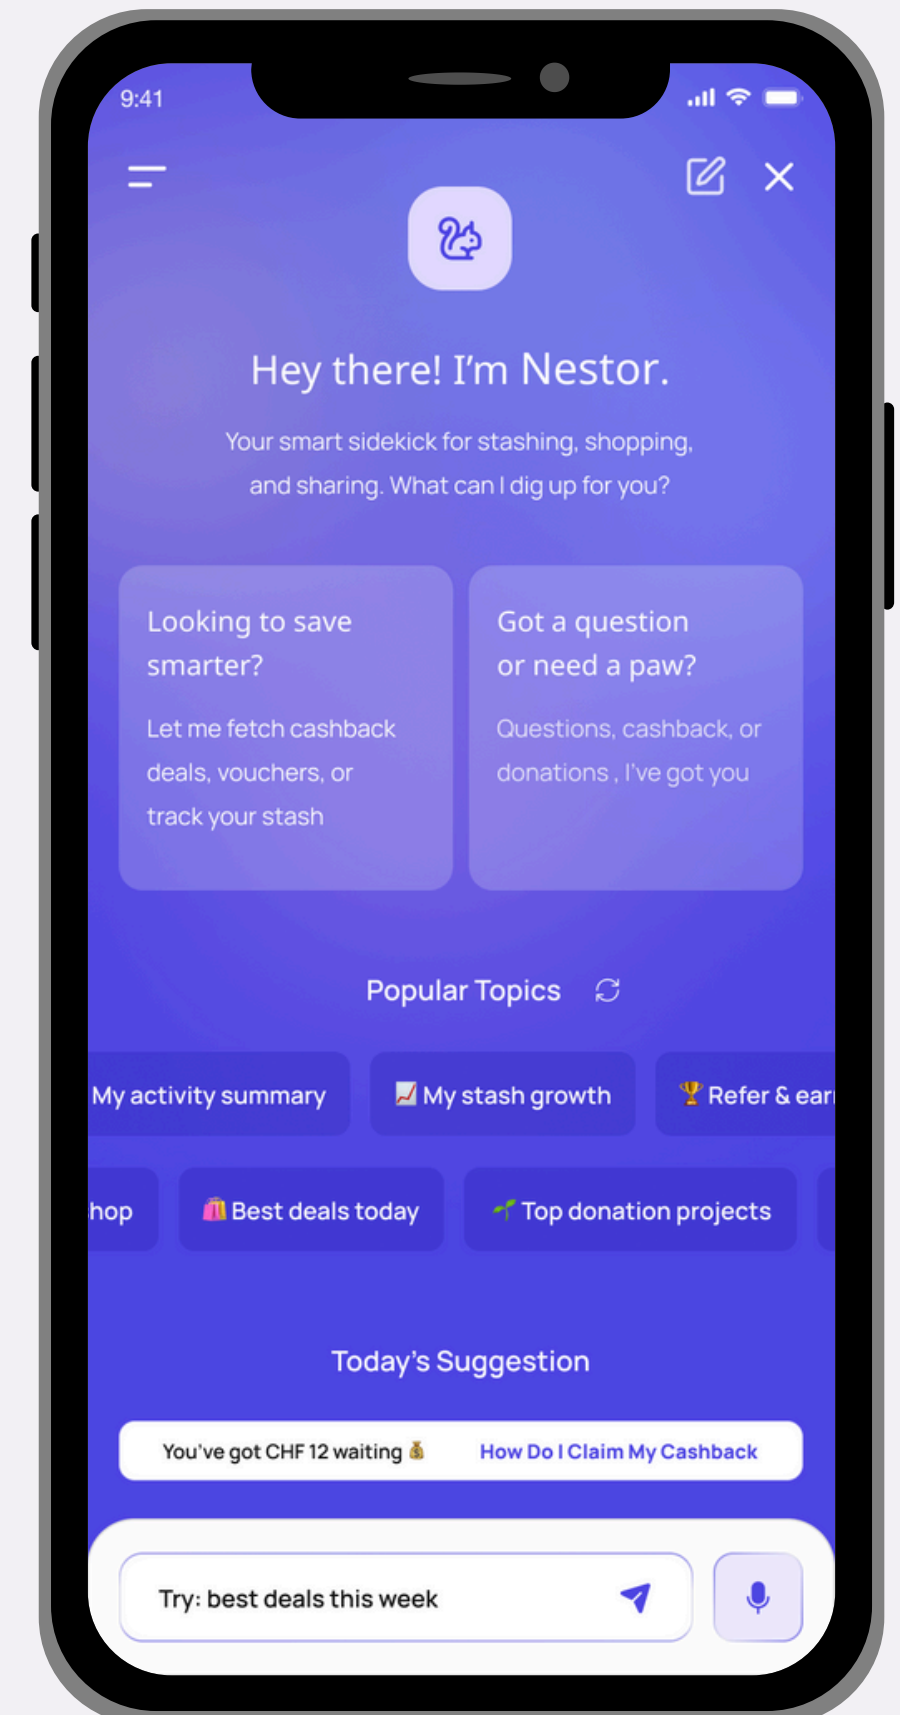

Why are we still typing

Forgot the Card. Again.

Squilio is not a bot. It's a conversation that thinks.

Say what you need.
Squilio gets it - and does the rest.
→ No app. No search. No frustration.

Our AI thinks along with you and delivers relevant offers - directly via WhatsApp, Telegram or Web. Fully automatic. Ready to use.

This is not the future. This is Squilio. Today.

We built this for everyone who's tired of systems that don't listen.
